

U. S. Testing Underground Nuclear Blast

By FRANK CAREY

WASHINGTON (AP) — The United States began its underground nuclear test series with an apparently junior-size blast packing a punch equivalent to 1,000 tons of TNT—possibly less.

President Kennedy announced that Friday's low yield, no-fallout underground explosion took place in a remote, highly guarded section of Nevada. There was no advance announcement and the blast was not audible in the nearest city, Las Vegas, 65 miles away.

In his statement, Kennedy said, "The detonation has produced no fallout. This is in marked contrast to the Soviet nuclear tests in the atmosphere."

He added, "The United States once again reaffirms its readiness to negotiate a controlled test ban agreement of the widest possible scope."

Fifteen days ago, the Soviets junked their three-year moratorium on nuclear testing. They have fired 10 blasts into the atmosphere in their current test series.

There have been reports from and authoritative sources that a series of 24 U.S. weapons was ready for testing as soon as Kennedy gave the go-ahead.

The known facts about the force of Friday's U.S. test are these:

1. The White House described the explosive yield of the blast only as one of "low yield."

2. A University of California seismologist reported that his seismograph had recorded the shock from the blast. He said its magnitude on the earthquake scale of reckoning was 4. That would be a moderate earthquake.

It was the 104th nuclear explosion at the Nevada proving grounds. The 103rd shot was set off nearly three years ago.

There were no reporters present at the blast. The White House had announced that no on-the-scene coverage by news media would be permitted at future U.S. nuclear tests.

Word of the blast was flashed to Washington over an open telephone line from the test site to Dr. Glenn T. Seaborg, chairman of the Atomic Energy Commission, who relayed it over a direct line to the President at the White House.

But at Las Vegas a sonic boom from a fast flying airplane 20 minutes after the blast was mistaken for the nuclear explosion.

In the old days of testing—before October 1958—mighty flashes, mushroom clouds and devastating blooms rewarded viewers who turned out to watch the show.

Lookouts on Railways Now a Must

LITTLE ROCK (AP) — Gov. Orval E. Faubus has signed into law a bill to reinstate provisions of the old railroad lookout act which was repealed earlier this year.

Along with the new measure, passed at the recent special legislative session, Faubus Thursday also approved a companion bill intended to place railroads on the same level as other parties in the matter of contributory negligence in accidents.

Proponents said that was all the lookout law repealer, adopted at last winter's regular session after a bitter fight, would do, but opponents disagreed. They said it would relieve railroads of any necessity for caution to avoid accidents.

The objectors have obtained a referendum on the law repealing law for the 1962 general election, but this apparently will not be held in view of the new act.

Railroad lookout statutes specifically require train crewmen to keep a watch for persons and property on the right of way.

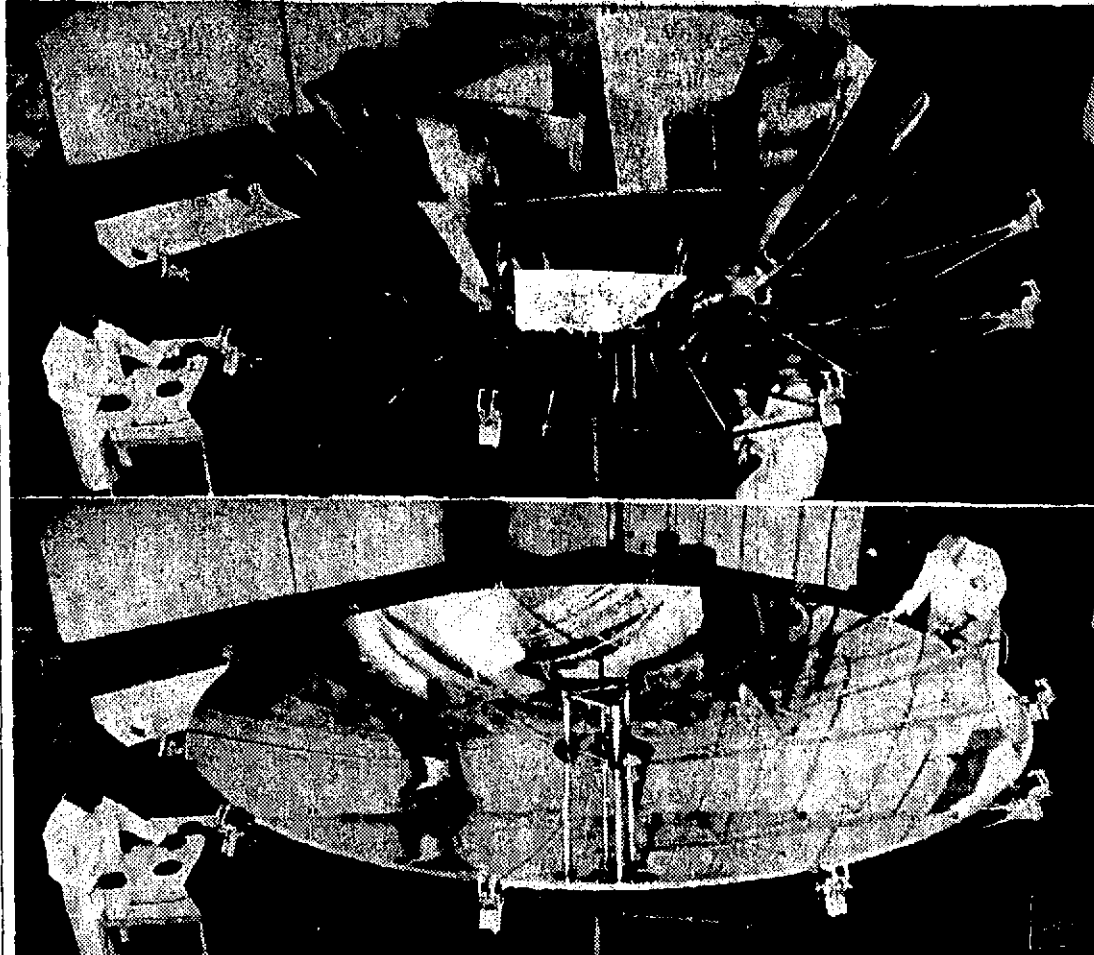

Faubus signed a total of 17 bills, including construction appropriation measures for the University of Arkansas and the seven state-supported colleges.

He continued to delay action on two appropriation bills for the Children's Colony at Conway. One would provide \$400,000 and the other \$750,000.

Faubus said he had not decided which of the two he would sign. The governor has until next Thursday to decide what action to take on the remaining handful of unsigned bills.

Weather

Arkansas—Clear to partly cloudy through tonight; fair and warmer tomorrow.

SPACE "FLOWER"—A huge experimental solar reflector, which opens and closes its panels like the petals of a flower, is demonstrated at GE's missile and space department in Phoenix, Ariz. The reflector could be folded up in the nose of a rocket for a trip into space. In "full bloom," it would focus the sun's heat for generating electricity to power the instruments in a satellite.

Censure and Praise Over Rider Arrests

JACKSON, Miss. (AP)—Praise and censure came today from Episcopal bishops for the desegregation attempt by 15 Episcopal priests facing trial on breach of peace charges.

The Rev. Robert L. Pierson of Evanston, Ill., and New York City, son-in-law of New York Gov. Nelson A. Rockefeller, was one of the 12 white and three Negro clergymen arrested Wednesday for trying to desegregate a Jackson bus terminal. Their trial was set for 3 p.m. today.

The Rt. Rev. Arthur C. Lichtemberger of Detroit, the presiding bishop of the Episcopal Church in the U.S.A., praised the action of the 15 clergymen. He said they were "attempting to bear witness to their Christian convictions about racial matters and to make it evident to the whole country what the position of the Episcopal Church is."

Bishop Wilburn Campbell of Charleston, W. Va., head of the Episcopal diocese of West Virginia, said the "Prayer Pilgrimage" "deliberately and defiantly violated the known laws of municipalities and states." He said the priests "should be prepared to take the consequences."

"Personally, I have little sympathy for them—not because of their goals and ideals, but because of their tactics," Campbell said. "You cannot achieve a moral goal by immoral actions."

One of the arrested ministers, the Rev. John B. Morris, 31, of Atlanta, is executive director of the Episcopal Society for Cultural and Racial Unity, sponsor of the pilgrimage. Campbell denounced the group as an "irresponsible, self-organized association" with no official standing in the church.

Along with the new measure, passed at the recent special legislative session, Faubus Thursday also approved a companion bill intended to place railroads on the same level as other parties in the matter of contributory negligence in accidents.

Proponents said that was all the lookout law repealer, adopted at last winter's regular session after a bitter fight, would do, but opponents disagreed. They said it would relieve railroads of any necessity for caution to avoid accidents.

The objectors have obtained a referendum on the law repealing law for the 1962 general election, but this apparently will not be held in view of the new act.

Railroad lookout statutes specifically require train crewmen to keep a watch for persons and property on the right of way.

Faubus signed a total of 17 bills, including construction appropriation measures for the University of Arkansas and the seven state-supported colleges.

He continued to delay action on two appropriation bills for the Children's Colony at Conway. One would provide \$400,000 and the other \$750,000.

Faubus said he had not decided which of the two he would sign. The governor has until next Thursday to decide what action to take on the remaining handful of unsigned bills.

The objectors have obtained a referendum on the law repealing law for the 1962 general election, but this apparently will not be held in view of the new act.

Railroad lookout statutes specifically require train crewmen to keep a watch for persons and property on the right of way.

Faubus signed a total of 17 bills, including construction appropriation measures for the University of Arkansas and the seven state-supported colleges.

Faubus said he had not decided which of the two he would sign. The governor has until next Thursday to decide what action to take on the remaining handful of unsigned bills.

Catholic Mission Starts Sunday

Our Lady of Good Hope Church will hold a Catholic Mission beginning Sunday at 7 p.m. and ending Thursday, Sept. 21. During the week Mission sermons will be delivered at 7:30 p.m. and morning services at 8:30 a.m.

Father Harold Leach of the Passionist Fathers, Chicago, will speak on such subjects as Salvation, Punishment of Sin, Duties of Parents and Children, Marriage and Family. Anyone may attend. The Church is located at 305 S. Walker.

Bootleggers Caught at Memphis

MEMPHIS (AP) — A two state ring of bootleggers who sold thousands of gallons of moonshine here has been broken, revenue agents say.

L. R. Mashburn of Jackson, Miss., special agent for the Treasury Department unit, said Thursday night that seven Negroes and a Memphis white man had been jailed and five vehicles confiscated.

Agents based in Memphis worked with Mashburn on the case, which involved several Mississippi residents. The officers said they were fired on from ambush five times during the investigation. No one was hit.

Mashburn said all eight were charged with conspiring to violate internal revenue laws by manufacturing moonshine whiskey. He estimated that the moonshine had deprived the government of about \$100,000 in taxes.

The lone white man was identified as Aubrey McRae Luttrell, 46, of Memphis. Mashburn said Luttrell was picked up at a store he operates on U.S. Highway 70 near Olive ranch, Miss., and jailed in Oxford.

Mississippi residents arrested—all from DeSoto County—were Clem Allen Cross, 55; James Edward Dukes, 38; Willie B. Coleman, 36.

The other Negroes, all from Memphis or Shelby County, were Arthur Brown, 41; Oliver Prince, 55; Sam Brown 44, and Theodore White, 36.

The agents said more arrests were expected. Prince operates a night club in West Memphis, Ark., and Brown operates one in Shelby County.

Department Store Sales Decline

ST. LOUIS (AP) — Department store sales last week in the 8th Federal Reserve District, with a pronounced decline in the small cities, totaled 3 per cent under the corresponding week a year ago.

Sales increased 2 per cent in Louisville and 6 per cent in Memphis. Declines were recorded in St. Louis, down 5 per cent, and Little Rock down 2 per cent.

In seven smaller district cities combined, sales were down 21 per cent compared to the same week of 1960.

For the past four weeks, sales were about the same level as for the similar four-week period of 1960. But for the year to date, the total is one per cent under last year's pace with only Louisville-up 6 per cent—showing a decline to Berlin Tuesday morning.

Clay conferred for half an hour this morning with Kennedy at the White House. He emerged to tell newsmen the Berlin situation is "perhaps the most tense, most critical, that it has been in the city's history."

"But in any event, I have complete confidence in the morale of the West Berliners," Clay said. "They have shown it many times."

Clay, who has taken leave from his post as head of Continental Can Co., for duration of his mission, said he has been instructed to report his conclusion and recommendations on "what should be done about the future of Berlin" to the President and to Secretary of State Dean Rusk.

He plans to leave Saturday for Paris, then move on to Bonn for brief talks with leaders of the West German government, and thence to Berlin Tuesday morning.

50 Families Moving to Safer Area

SMITHTOWN, N.Y. (AP)—The vanguard of about 50 families in this Long Island community, seeking a better chance of survival in case of nuclear warfare, leaves this weekend to take up residence in Chico, Calif.

Alvin Bauman, 43, spokesman for the group, married and the father of two children, said Thursday: "We've been thinking this over for some time now. What finally provoked us to action was the present war scare. Some people may think it's foolish but we see nothing foolish in facing a real situation."

Bauman said Chico had been chosen, after exhaustive research, as one of the few areas in the United States that would remain habitable after atomic attacks. Other areas considered were elsewhere in Northern California, Oregon and Montana.

About 30 persons, including several children, will make up the initial contingent. A Chico real estate firm has leased 12 houses to the New Yorkers.

Many of those joining in the exodus are members of the Olshaus Foundation which Bauman, a member, describes as a philosophical group interested in increasing knowledge between the Orient and the West. The society was founded by Japanese scientist-philosopher George Ohsawa.

Those going to Chico include attorneys, artists, actors, teachers and businessmen. Some are single, some married.

Bauman has worked as a musician, college music teacher and, most recently, as head of a non-profit organization.

He commented: "We're rather excited by the move. Those who own their homes are selling them, and we're all looking forward to integrating into the life of our new community."

The rains had already produced widespread flooding. Police reported one person killed, one missing and 11 injured on the southern island of Kyushu.

After causing widespread crop damage Thursday night on the U.S. fortress island of Okinawa, the storm swept up from the Ryukyu Islands and headed for Kyushu.

Weathermen predicted it would then swerve northeast across Shikoku Island and on through populous western Honshu. It is expected near the industrial city of Osaka Saturday afternoon and Tokyo in the evening.

Nancy's winds had abated from Tuesday's high of 230 miles an hour to 144 miles an hour, but this was small comfort to millions of Japanese in their homes, boarded up homes. Thousands carried their belongings to public buildings and took shelter.

The Greek freighter Timos radiated she had been disabled by the storm and was drifting out of control 100 miles north of Minami Daito Island. Contact was lost after that and the 7,139-ton ship was listed as missing somewhere south of Kyushu.

The Japanese freighter Tanazawa Maru, with a crew of 43, reported she was out of control off Kyushu.

Another freighter, the Nichifujimaru, carrying a crew of 36, radiated she had run aground on Minami Daito.

Heavy weather prevented the dispatch of rescue vessels.

The National Aeronautics and Space Administration released three pictures for publication today.

One showed a huge circular cloud mass with a well defined "eye" which the space agency said was Hurricane Esther. The photo was taken 18 minutes after launch as the capsule neared the west coast of Africa and was zipping along at 17,519 m.p.h. 110 miles high. Esther, with 130 m.p.h. winds, since has churned slowly through the middle Atlantic.

The camera was pointed out of two glass portholes in the vehicle to gain some idea of what an astronaut might see when he rides into orbit. The capsule, launched Wednesday was returned to earth and recovered after one orbit, raising hopes that an American spaceman can be sent aloft within a few months.

Clay conferred for half an hour this morning with Kennedy at the White House. He emerged to tell newsmen the Berlin situation is "perhaps the most tense, most critical, that it has been in the city's history."

"But in any event, I have complete confidence in the morale of the West Berliners," Clay said. "They have shown it many times."

Clay, who has taken leave from his post as head of Continental Can Co., for duration of his mission, said he has been instructed to report his conclusion and recommendations on "what should be done about the future of Berlin" to the President and to Secretary of State Dean Rusk.

He plans to leave Saturday for Paris, then move on to Bonn for brief talks with leaders of the West German government, and thence to Berlin Tuesday morning.

Troops Hold Key Points In Katanga

By DENNIS NEEDLE

LEOPOLDVILLE, the Congo (AP)—Hard-pressed U.N. troops held out at key points in Katanga today while reinforcements were rushed in and the United Nations tried to reason with Katanga President Moise Tshombe.

The three major centers of military action were the capital at Elisabethville, the mining town of Jadotville 60 miles northwest of the capital and Kamina base in northern Katanga. Casualties were heavy, and Katanga forces gained control of large sectors of Elisabethville, U.N. sources said. "Tshombe was believed still in Elisabethville."

Katanga forces, led by white officers, attacked in all three places Friday and put U.N. soldiers on the defensive in their campaign to disarm the Katangan army and win it back for the central Congolese government. Revenues from the mineral-rich province are vital to the Congolese treasury.

The 150 Irish soldiers at Jadotville were originally sent there to protect the European population. They have been under siege for six days, although the open fighting for Katanga did not begin until early Wednesday.

They were surrounded by 500 well-armed Katanga troops and hundreds of fanatical Bayeka tribesmen. A U.N. relief column was turned back by Katangan roadblocks, reinforced by heavy machine guns.

Conor Cruise O'Brien, an Irishman who is the chief U.N. representative in Katanga, said enough Katanga prisoners had been captured to set up an exchange for the Irish if necessary. Radio Free Katanga, Tshombe's station, declared that 10 U.N. prisoners would be executed for every Katangan killed. About 130 Irish U.N. troops were prisoners when the announcement was made. It followed orders from U.N. officials for the summary execution of any Katangan civilian found carrying weapons.

The orders came from Brig. S. K. Raja of India, the U.N. military commander. He decreed a state of emergency and an 8 p.m. curfew.

The U.N. second in command in Katanga, Michel Tombelaine, said Friday that Tshombe would soon talk with U.N. authorities. But Tombelaine made it clear that the United Nations "is determined to stand by its decision to implement the Security Council

Japan Lashed Severely by a Typhoon

TOKYO (AP) — Twenty-foot waves and violent rains hit southern Japan today, heralding the approach of Typhoon Nancy. Two merchant vessels were in distress and one was missing with 28 aboard.

The rains had already produced widespread flooding. Police reported one person killed, one missing and 11 injured on the southern island of Kyushu.

After causing widespread crop damage Thursday night on the U.S. fortress island of Okinawa, the storm swept up from the Ryukyu Islands and headed for Kyushu.

Weathermen predicted it would then swerve northeast across Shikoku Island and on through populous western Honshu. It is expected near the industrial city of Osaka Saturday afternoon and Tokyo in the evening.

If You Didn't Get That Job the First Time Out, Don't Give Up, Just Try Again

By MARY ANITA LASETER

There are lots of kinds of ships in the world, and we are not referring to the ones in the water. Rather, the subject is the rest of the phrase which begins "Don't give up the . . ."

That advice can be carried to the extreme of course, but basically it is sound. At the first sign of opposition or rejection, don't shrug your shoulders and quit. Who knows what better things lie just ahead? Here is a "for instance."

Recently, a local girl, Martha Ann Alexander, came to see her mother, Mrs. W. H. Alexander, in our city. During a visit with her, many interesting things were learned about her profession of training stewardesses for National Airlines. But what Miss Alexander said in regard to those seeking positions as stewardesses, is good advice for those seeking other types of jobs as well.

"Don't give up and decide you are in the wrong line of work if you are refused a job the first few times, you apply for it."

She was talking about the 28 airlines in the United States, but that is true in any field (air or otherwise). "I once knew a young lady who was suitable in every way for the job of stewardess except she had a very bad complexion that distracted from her looks," Miss Alexander said.

"As everyone knows, this job doesn't demand perfection in physical features, but pleasing ones are a necessity. Therefore, it would be the same thing if she went elsewhere, the girl reasoned. But she did not give up. Instead, she set about to correct her appearance by going to a dermatologist, and after two years she was able to try again for the job and was accepted."

A little closer to home we find another example of determination becoming victorious. Folks around here recall when young Donna Freeman was injured in an accident in Hope a few years ago. At that time she was hopeful about entering airline stewardess work. She wasn't deterred by hard luck, and it was learned that she has just completed the training course for National Airlines stewardesses which Miss Alexander conducts.

Whereas these two stories have "happy endings," there are many more that to all appearances do not. That is when "try, try again" at some other place is sometimes the best procedure to take. When constructive criticism is given by someone you trust, it's usually best to take that, too.

But when all seems to fail, take a look at your "ship." Maybe it's one the wrong course, and a higher Being is trying to guide you in a different direction. Even Columbus did not reach his original destination of India. Instead, he made a most wonderful discovery — an entire new world.

More Bans on Shipments to Cuba

WASHINGTON (AP) — The House passed a bill today to ban interstate shipment of goods coming from or going to Cuba.

Representatives of the all-Havana cigar industry in Tampa, Fla., had protested that the ban would put them out of business and throw 6,000 persons out of work in Tampa. Cigar tobacco is the major portion of goods still being imported from Cuba. Other products, mostly fruit, have been reduced to a trickle.

No one spoke against the bill in the House. It now goes to the Senate but there is some doubt whether it can get through in the rush for adjournment.

The ban on Cuban imports was called "an economic boycott of Cuba" by Rep. Paul G. Rogers, D-Fla., sponsor of the bill, which passed by voice vote. Several other Congressmen spoke in support of it.

Mrs. Easter Hurt in Fall Friday

Mrs. Della Easter was injured at noon Friday when she slipped and fell down the Post Office steps. She was taken to Memorial Hospital for treatment. Extent of her injuries could not be determined immediately but she injured her foot and ribs. A report from the hospital today said she wasn't critically hurt but was "Pretty sore" and would remain in the hospital a day or so.

Editors Are Involved in Contempt

LITTLE ROCK (AP)—Contempt of court cases against two Arkansas Democrat editors, a reporter for the newspaper and an attorney were continued today until Oct. 13.

Circuit Judge William J. Kirby granted a motion for the delay for managing editor Herrington, city editor Marcus George and reporter Bob Trout.

Kirby granted a motion for dismissal of a contempt charge against attorney Kenneth Coffelt, but said the charge would be refiled immediately. He indicated the new charge would be heard at the same time as the others.

Coffelt's attorney, Floyd Terral, had asked for dismissal on ground that there was no statement of particulars.

Kirby said this defect would be remedied in the new charge, which he said would have an Arkansas Democrat story quoting Coffelt attached as a bill of particulars.

The story, written by Trout, dealt with allegations of gambling activity in Pulaski County.

Kirby denied a motion by Terral to have the cases heard by another judge.

None of the defendants was in court.

Kirby read the Democrat story into the court record.

E. A. Henry was attorney for the Democrat newsmen.

Drowns in River at Calico Rock

CALICO ROCK, Ark. (AP) — Willard Hancy of Weiner, Ark., a 45-year-old rice grower, drowned in the White River near Sylamore, Perry Thursday while swimming for a life preserver after his boat capsized.

His wife and Ervin Sitzer of Weiner, also occupants of the boat, escaped.

The survivors told authorities that the boat struck a log and overturned.

Sitzer clung to the boat.

Both Mr. and Mrs. Hancy were holding to the same life preserver when Hancy started to swim to another floating in the river.

Mrs. Hancy said her husband disappeared and she didn't see him again. She floated about 1 1/2 miles downstream before reaching shore. Sitzer stayed with the boat and reached shore.

Searchers were still looking for Hancy's body today.

Sylamore is about 12 miles southeast of Calico Rock.

Progress Is Being Made By Ministers

By JOHN M. HIGHTOWER

WASHINGTON (AP) — Western foreign ministers were reported today to have made good progress in agreeing on military, political, and other countermeasures that may be used by the Allied powers against Soviet pressures on West Berlin.

Secretary of State Dean Rusk and the foreign ministers of Britain, France and West Germany were scheduled to wind up their three day Washington conference early this afternoon.

Rusk was scheduled to go to New York Sunday for the opening days of the U.N. General Assembly, beginning Tuesday, and for exploratory talks on Berlin with Soviet Foreign Minister Andrei Gromyko.

The foreign ministers meeting with Rusk—Britain's Lord Home, France's Maurice Couve de Murville and East Germany's Heinrich von Brentano—are reported to consider the Rusk-Gromyko probing operation of crucial importance. Britain, and apparently the United States, favor an East-West foreign ministers meeting on Berlin in October or November if Gromyko brings word that Soviet Premier Khrushchev is ready for negotiations on what the Western powers would consider reasonable terms.

On the other hand, information from inside the conference is that the four Western ministers agreed that they will not become involved in any negotiations in which Khrushchev clearly intends to dictate the terms and humiliate the West. If that is the attitude which Gromyko displays to Rusk, the judgment of the Western ministers is reported to be that prospects of a shooting war over Berlin will be very great.

Informants said the Western foreign ministers have considered the possibility of making Berlin an open city or of establishing U.N. agencies in Berlin as a guarantee of its independence.

The Western policy meeting here went into its final day amid a rash of rumors about possible new moves by the Soviet Union and Communist East Germany in the Berlin crisis. The ministers learned Friday that the U.S. government has reports that the East German regime plans "the arrest and mass deportation" of people living on the Communist side of

More Sentences Are Commuted

LITTLE ROCK (AP) — Gov. Orval E. Faubus Thursday commuted from four years to parole eligibility the prison term of Gerald Leavelle Gray, who was sentenced Oct. 1, 1960, in Cross and Crittenden counties for bigamy and passing worthless checks. Gray may leave prison without delay.

SOCIETY

Phone 7-3431 Between 8 A. M. and 4 P. M.

Calendar

Saturday, Sept. 16

Pot Luck and Cards will be enjoyed Saturday at 7 p.m. at the Hope Country Club. Host couples will be Dr. and Mrs. Lowell Harris and Mrs. Lyle McMath. Lex Helms, Sid McMath and Earl O'Neal.

Members of the Pat Cleburne Chapter of the U.D.C. will have a luncheon meeting, Saturday, Sept. 16 at 12:30 p.m. in the home of Mrs. H. C. Whitworth on S. Elm.

Monday, Sept. 18

Wesleyan Service Guild No. 2 of the First Methodist Church will meet at 7:30 p.m., Monday, Sept. 18 in the home of Mrs. Royce Weisenberger with Mrs. Sam Andrews as co-hostess.

Monday, Sept. 18 the WMS of the First Baptist Church will observe the day of prayer for Arkansas State Missions. The program, directed by Mrs. Walter Jr., will begin at 11 a.m. A covered dish luncheon will be held at noon. The Arkansas Mission program will resume at 1 p.m. My circles will participate. The Dixie Jackson State Mission offering will be taken.

Circle 5 of the WSCS of First Methodist Church will meet Monday, Sept. 18 at 7:30 in the home of Mrs. Paul Bain with Mrs. Doyle Reeves as co-hostess.

The 4-H Club Council will meet in the large courtroom for a program and election of officers on Monday, September 18 at 7:30.

Tuesday, Sept. 19

The Kathleen Mallory Circle will not meet Tuesday, Sept. 12, but will meet Tuesday, Sept. 19 at 7:30 p.m. in the home of Mrs. C. M. Rogers Jr. Officers will be elected at this time. All members are urged to attend.

The DeAnn Lilac Garden Club will meet Tuesday afternoon at 2:00 in the home of Mrs. Roy Burke. Mrs. John Burke will be co-hostess. The arrangement will be a hand made hat of autumn leaves and flowers.

Wednesday, Sept. 20

The Hope Chapter of the Junior Auxiliary will meet Wednesday, Sept. 20 instead of the regular meeting date at 10 a.m. in the Community Room of the First National Bank. The executive board will meet at 9:30.

Thursday, September 21

The Home Demonstration Council will hold its annual fall meeting at 10:00 a. m. in the W. O. W. hall. There will be a potluck luncheon, business and a program.

Hope Junior-Senior High P. T. A. Meets

The Hope Junior-Senior High P. T. A. met in the Junior High auditorium on Thursday, September 14 at 3:00. Mrs. Homer Bey-erley, president, called the meeting to order. Mrs. F. J. Burroughs gave the prayer. Mrs. Sam Strong gave the devotional using as her text Matthew 9:1. Mrs. Bill Reinhardt gave the presidents message. Vince Foster, vice president of Student Council, explained the fee that each student will give this year which will take care of the Charity drive, Hi-Light, and entertainment. The vice president, Mrs. Haskell Jones introduced the faculty for 1961-62 of Junior and Senior High School.

Cakes were served as refreshments. The November meeting will be a parent-teacher night.

Coming and Going

Miss Leta Jo Lesley of Woodville, Tex., is visiting in Hope with her grandparents, Mr. and Mrs. Charles Tarpley.

J. C. Penney Looks Over Past 60 Years

By JOHN T. CUNIFF
AP Business News Writer

NEW YORK (AP)—J. C. Penney looked back on nearly 60 years in the business world today and pronounced businessmen now more ethical than ever before.

This despite charges of collusive bidding, price fixing and deteriorating morals in the business world, says the famed merchandiser whose name appears on nearly 1700 stores.

Penney, a florid-faced moralist who mixes the homely maxims of a country preacher with a tough-minded, no-nonsense business philosophy, will be 86 years old Saturday.

"Business now is conducted on a much higher ethical plane than when I started out," he said during an interview in his office on the 18th floor of the Penney Building.

Prominently displayed in the office, where he works as a director, is a picture of his first store, "The Golden Rule," opened in 1902 in the mining area town of Kemmerer, Wyo.

Last year the Penney chain did well over a billion dollars in business.

"When I started out there was no set price for an item. The best haggler got the best price. And a lot of merchants believed it was up to the buyer to beware," he said.

"Today a businessman would be bound to fail if he conducted business in such a manner."

Penney maintains his chain grew from observance of the Golden Rule. "I don't think it was the Golden Rule. I can't believe it was anything else," he said.

He deplores the trend to discount stores, doesn't even like to hear the word "discount" used in that manner. "I always believed in putting complete value in every sale," he said.

What about opportunity today? "It was never better. No boy left home with less bright prospects than I. I was sickly. I had no money." But, he'll tell you, he recognized opportunity.

"I believe opportunity is greater today than in my day," he said. "But you must prepare for it and recognize it."

Monsanto Signs Union Pact

EL DORADO, Ark. (AP)—Monsanto Chemical Co. and Local 8-434 of the Oil, Chemical and Atomic Workers signed a three-year contract Thursday with reported wage increases of 9 and 11 cents.

Details of the contract were not announced, but a source close to the bargaining said the new contract grants 8-cent hourly wage increases effective July 1, 1962, and July 1, 1963.

The union and the company have been debating a new contract for two months since the old contract was \$2.10 to \$3.06 an hour. The new pact runs until June 30, 1964.

120 Typhoon Deaths

TAIPEI, Formosa (AP)—Typhoon Pamela caused 120 known deaths Tuesday on Formosa, the provincial government reported today.

The new figure was 22 higher than the number announced previously. The provincial government also listed 27 persons as still missing.

Bookmobile Schedule

Sept. 19: 9 Laneburg Schools; 1 p.m. Man's Grocery; 2 Rosston School.

Sept. 20: 1:30 p.m. at Patmos school; 2:15 Patmos Community; 3:05 Pankey's home.

Sept. 21: 9 a.m. Bodcaw School; 12:30 Downs Home; 1 Brockman Hill; 2 Falcon; 2:45 Texas Eastern Camp.

Sept. 22: 9 a.m. Cale School.

Constitution Themes Are Selected

Editor's Note: Mrs. Roy Allison's American History Class wrote themes for participation in the D.A.R. Constitution Week, Sept. 17-23. The judging resulted in a tie for first and the winning themes will be published. The purpose of the themes is to stimulate interest among the young people, in our government.

Mary Ann Bealy
What The Constitution Means To Me

Just what does the Constitution of the United States mean to you? Most people when asked this question would probably say, "Why, I Never thought about it!" The Constitution is one of the most important documents in the political history of the world and we never even think of how it affects our lives.

One could say the Constitution means freedom. It gives us many rights that were unheard of previous to it. However, it could at the same time mean restriction. It limits the power of the government and prohibits many unlawful practices.

Security could also define the Constitution. We know that we are protected by the first ten amendments, known as the Bill of Rights.

"The Constitution is above all, justice. To me, one of the most important features is that it provides equal rights for all."

These are but a few of the many concepts of this important document, for everyone has his own interpretation. Every American citizen should have a knowledge of the Constitution because it is for The People.

My favorite description of the Constitution and one that I believe sums it up perfectly, is that of the great English statesman, William Gladstone, who said the Constitution was "The most wonderful work ever struck off at one time by the brain and purpose of man."

Vince Foster
What The Constitution Means To Me

"You can not possibly have a broader basis for any government, than that which includes all the people with all their rights in their hands, and with an equal power to maintain their rights." These words of William Lloyd Garrison, 19th century abolitionist and editor, describe the Constitution of the United States best of any I have read. They are a wonderful tribute to probably the greatest work ever produced in this country.

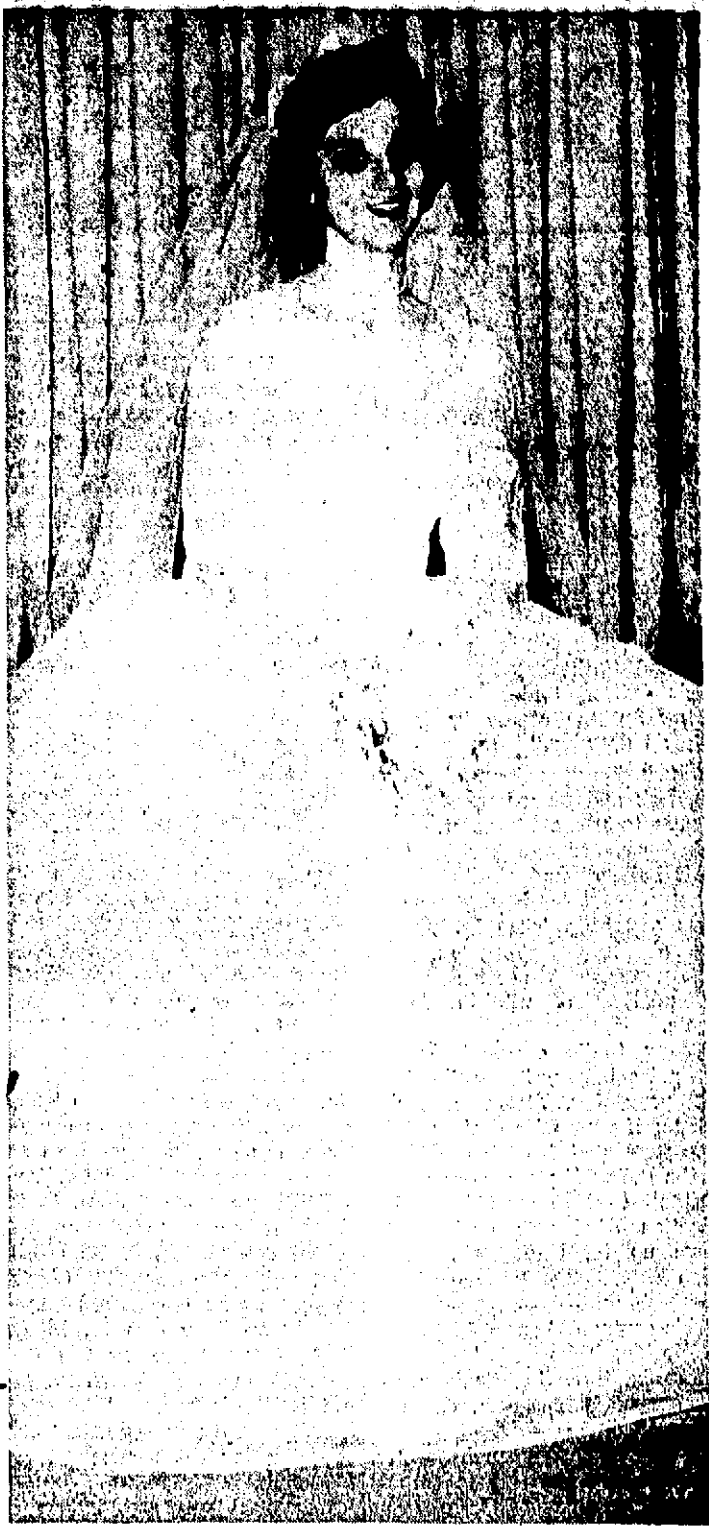

The Constitution, celebrating its 174th birthday September 17th, has been taken very much for granted in past years, although it has gone down in history as an influence to almost every other constitution since 1800. Only when each American reads, understands and follows this work of art, will it fully receive the appreciation it so greatly deserves.

As an American, I am guilty of the common crime of not completely appreciating the value of this document by which our great nation is governed. I wish I would study the Constitution as I have this month, so they could realize the thought, planning and work which went into it. It is one thing to desire law; another to organize it. That a single document could be the basis of government for a nation as large and as powerful as the United States for 174 years is almost unbelievable. Yet we have such a document and practically take it for granted.

We should be proud to have a constitution which has been used for nearly two centuries of success and which, in my opinion, has played a major role in making the United States the great power it is today. Our neighbor of Cuba has had three constitutions in the last 60 years. In view of that, compare the international opinion of the United States and that of Cuba.

I am proud to be an American, therefore I am proud of our constitution, because it is a written document of the principles on which America stands. For the sake of these principles of freedom, democracy, equality and justice, I stand behind the Constitution and sincerely hope it will flourish forever.

In Article II, Section 1, clause 3 it is stated that before a President takes office he must take a certain oath. The latter part of that oath states, "And I will to the best of my ability, preserve, protect and defend the Constitu-

Mrs. James HoSan Westmoreland

An evergreen bedecked trellis highlighted with frosty white gladioli made the setting at North Highland Baptist church in Shreveport for the marriage of Miss Patricia Ann Valentine, daughter of Mr. and Mrs. H. L. Valentine of Hope and James Hagan Westmoreland, son of Mr. and Mrs. Barney Westmoreland of Shreveport. The Rev. Glen Marr heard their vows on July 29.

The bride entered escorted by her brother, Kelsey Valentine of Texarkana. Her gown fashioned of Chantilly lace and tulle over white satin was designed with a delicately scalloped neckline highlighted by pearl white sequins. A border of Chantilly lace gently flowed from the pointed waistline. She carried a bouquet of stephanotis centered with an orchid placed on a white Bible.

Mrs. Jacky Willett of Commerce, Tex., was matron of honor and bridesmaids were Miss Kay Westmoreland, sister of the bridegroom and Miss Bonnie Byrom, niece of the bride. Miss Lanette Teeters, niece of the bride, was flower girl and Master Dwayne Valentine, her nephew, acted as ring bearer. Candle lighters were Misses Jane Stephenson and Tobie Sue Lindsey.

The bridegroom's attendants included Jacky Raspberry and Neil Young as groomsmen and Bill Lindsey and Bobby Young, ushers. Lt. Barney Westmoreland served his brother as bestman.

Following the ceremony the guests were invited to the church reception hall.

For travel the bride chose a sheath of beige linen with an embroidered bodice. Matching beige and orange accessories completed her ensemble. She pinned the white orchid from her bouquet to her shoulder. After a short wedding trip the couple are residing in Shreveport where he is employed at a bank.

People Use Doubletalk Unknowingly

By HAL BOYLE
NEW YORK (AP)—How good are you at double talk?

You may think you don't use double talk at all. But you do—probably many times every day.

To double talk merely means to say one thing when you actually mean something else.

Double talk is by no means confined to the realm of politics and international diplomacy. It is equally popular in business, marriage and the day-to-day diplomacy of ordinary social life.

It is not only popular; it is essential. Otherwise, if we told the exact truth in all situations, we'd all be at each other's throats in no time—and society would explode in chaos.

For double talk is both the measure and mortar of civilization. The more double talk, the higher and more cultured the civilization of the United States. I challenge each American to sincerely take that oath, and thus give the Constitution a greater chance to better the American way of life.

Mississippi to Rise Rapidly

MEMPHIS (AP)—The Weather Bureau at Memphis issued a bulletin today warning of rapid rises in the Mississippi River in the Memphis area.

The bureau said there was no danger of flooding at this time. The crest at Memphis was tentatively estimated at 16 feet. Flood stage is 34 feet.

The bulletin:

"All river interests are advised to be prepared for quite rapid rises in the Mississippi River in the Memphis district next week. There will be a rise of 6 to 7 feet in 48 hours early in the week at Caruthersville, Mo., near mid-week at Memphis and later in the week at Helena, Ark. Crests are indeterminate at this time but Memphis may have 16 feet in about a week.

Spa Workers Go for a Union

HOT SPRINGS, Ark. (AP)—Employees of National Rejectioners, Inc. Thursday voted 190 to 98 in favor of union representation by the United Steelworkers Union. A total of 304 employees were eligible to vote. National Rejectioners, a subsidiary of Universal Match Co., makes components for money changing machines.

ization.

A man today who says exactly what he means at all times is regarded as an eccentric if he's rich, and crazy if he's poor.

Here is a partial glossary of double talk phrases—and what they really mean—which you may read or use yourself at almost any time:

"What a pleasant surprise—bumping into you this way!" means if I'd seen you coming, I'd have run the other way.

"What's new with you?" means don't tell me. I've got my own troubles.

"Haven't you put on a little weight, man?" means he must eat from a trough to get that fat.

"We like to regard this as a team organization" means I call the signals; you get the bruises.

"We must get together again real soon" means soon after the start of the 22nd century.

"No, sir, I don't think it's getting any thinner on top" means maybe if I make enough noise with the scissors this joker will really think he's got some hair left up there.

"I never saw you looking better in your life" means I wonder if I ever looked that bad.

"No, George, I insist—this one on me" means pick up that check, you free loader. You know it's your turn.

"The boss piled a last-minute job on me, I'll be at the office late" means I will, that is, if all night clubs in town closes.

"It's early yet. Why don't you all stay and have one more for the road?" means what's the matter with these people? Don't they have homes of their own to go to?

"I enjoyed your last column very much" means who wrote it for you?

No More Virus Tests by U. S.

LITTLE ROCK (AP)—The U.S. Public Health Service will no longer make laboratory tests for viruses on behalf of private physicians, Dr. J. T. Herron, state health officer, said today.

The service's diagnostic laboratory at Atlanta made such tests in the past but was forced to end the operation because of the vast number, he said.

Herron said Arkansas is one of the few states which does not have its own diagnostic laboratory. He said he has tried unsuccessfully for "seven or eight years" to get such facilities.

Mrs. Meadows Dies at Conway

LITTLE ROCK (AP)—Mrs. Sophronia Meadows, 86, of Conway, died in a hospital here today.

Mrs. Meadows was the widow of Dr. A. J. Meadows, former dean and one time acting president of Arkansas State Teachers College at Conway.

She was a native of Williamsburg, Ky., and had lived in Conway since 1910.

Survivors include a daughter, Mrs. W. C. Ferguson of Conway, and a son, A. J. Meadows Jr. of Morrilton.

Funeral will be at Conway Saturday.

Red Blast Recorded

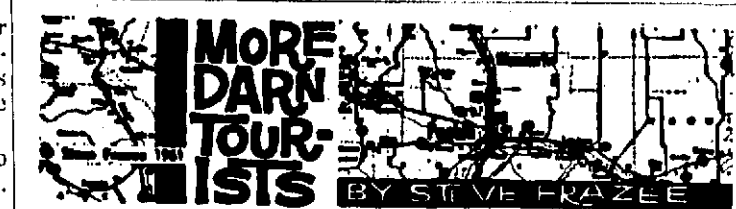

FAENA, Italy (AP)—The Bendini Observatory reported today that its seismograph recorded a shock at 2:50 a.m. in the Soviet Union which might have been an underground nuclear explosion.

The observatory said the shock seemed to originate about 3,000 miles east and appeared to be of artificial nature.

Royal Funeral

ALLATON, Scotland (AP)—Queen Elizabeth and other members of Britain's royal family today attended funeral services for Sir David Bowes-Lyon, brother of the Queen Mother. He died Wednesday.

Sir David, 39, suffered a heart attack.

Chapter XXIV

She watched him enter and glance around the room, wistfully searching for familiar things. Why shouldn't he, the wretch! Naturally he was regretting his enormous error.

"So you've come back Mr. Snoddy."

He looked well, Belinda had to admit, though it would hardly do to tell him so.

"You haven't changed much, Belinda."

"I've had a terrible time with my gall bladder." That was the truth, although it had been ten years before.

Snoddy smiled. "It's not generally known that I'm here. I thought I should let you know before the news came to you second hand."

"That's thoughtful of you, I must say, after all the years of suffering and anguish you've caused me."

Snoddy shrugged. He sat down. "I don't come here to quarrel, Belinda. I'd hoped that was all behind us."

Belinda studied him carefully. He was a different Frank from the old one, poised, and with a hint of strength behind his quietness. That's what happened when they got away on their own too long. But she had handled him before and she could do it again.

But of course she could not well come him back with open arms. Oh, no! Let him prostrate himself, let him court her forgiveness.

Belinda's mind went soaring. Why, here within easy grasp was a program that would maintain her in the public eye with a minimum of effort.

While she soared, Snoddy got up and walked toward the door. Belinda laughed coyly. "Always the impetuous boy. What's your hurry, Frank?"

"I've let you know that I'm here. That's why I called."

"But I haven't had a chance to ask you where you've been or what you've done!"

"Some other time perhaps."

"It's nearly time for lunch, Frank. Why don't you join me?" Belinda had not intended to go that far, not so early in the game, at least, but she was willing to concede a little at first to gain a great deal later.

"Thank you, but I have an engagement," he smiled at her and actually walked out.

Before the Rotary meeting at Merb's beanery, Finnegan and Stalcup went into cloakroom session with Hawley Whitehorse, the president, and Roney Donks, the program chairman, warning them not to mention ceremonial dancing in the park before the non-ordered guests who were supposed to do the dancing.

"You mean you ain't told them?" Donks said.

"We haven't had time to discuss it fully," Stalcup explained, which meant that he and Finnegan had

DOROTHY DIX

The Wailing Wall

By HELEN WORDEN ERSKINE

Dear Helen: You say that the majority of automobile accidents are caused by teen-age drivers. I believe, and so does my father, that lack of coordinated thinking rather than lack of years, is the cause of most automobile accidents, and the older people are, the less apt they are to think quickly.

The closest my father ever came to having an accident was when a man about 55 whizzed past a spotlight, then applied the brakes and came to a befuddled halt in the midst of fast-moving traffic. Teen-agers are quicker on the trigger than that. I would rather risk my neck with them. Any comment? —17-year-old M. Lindsay, Boston.

Dear Miss Lindsay: Certainly quick reflex action is a major qualification in good driving, but that is a matter of temperament rather than age. The fact remains that 50 per cent or more of all automobile accidents are caused by teen-agers.

Dear Helen: In your recent column you said you wouldn't whip your little Dachshund, much less a child. I don't go along with you. My mother has spanked me when ever I did wrong since I was a small child. I know she is attempting to teach me the difference between right and wrong and love her more than if she had not spanked me.

One lady told you about the Scripture's saying, "Spare the rod and spoil the child," but you didn't answer that because the Bible was right and you were wrong. How many children do you have? None. I gather from your column, how much experience have you had? If none as it would seem, how can you tell others how to raise their children? Why don't you teach God's way? —C. A., a 12-year-old.

Dear Little C. A.: You are much too righteous for a 12-year-old. Somebody must have been looking over your shoulder when

College to Let Students Sample Drinks

By BARRY SCHWEID

WASHINGTON (AP)—Fully aware that alcohol is not unknown to college students, staid old Georgetown University has announced plans for a student rathskeller near campus.

"Indoctrination in the proper use of alcohol is part of the education of modern young men," The Rev. T. Byron Collins, a university vice president, said Thursday in revealing school sponsorship of the tavern-restaurant.

"There's no use saying the students shouldn't drink," said Father Collins. "We prefer to provide a place with proper atmosphere where they can go for relaxation."

"There'll be more than beer and pretzels for student patrons when the rathskeller opens in early winter. Besides a bar and 'pub,' the establishment will contain a coffee shop, a dining room and an outside dining terrace.

Presumably, Georgetown students greeted the plans with favor. But neighboring property owners weren't so sure it was a good idea. They even hired an attorney, Charles R. Richey, to represent them.

Richey was ready with several objections. Among them was that the rathskeller would be within a block or two of a parochial elementary school and of the church President Kennedy attends.

Vessel Is Safe

TAIPEI, Formosa (AP)—A small vessel of the Chinese Nationalist navy has returned safely to Formosa after being disabled by Typhoon Pamela and shelled by the Chinese Communists.

The landing craft drifted within 200 yards of the China mainland coast Tuesday after its engines spluttered out.

The Defense Ministry said today the 12-man crew managed to repair the engine and head the craft out of danger

BOAT BUILDERS DESIGN FOR FUTURE SEASONS

By Wm. TAYLOR McKEOWN
Newspaper Enterprise Assn.

POMPANO BEACH, Fla. (NEA) - "How's the boat business?" we asked the world's biggest builder of pleasure boats.

"Good," the sales manager of Chris - Craft told us. "This industry felt the recession, but we note an upswing."

Chuck Burgess learned across his desk and picked up sheets of figures to prove his point.

A few years ago few pleasure-craft builders had sheets of anything except orders, specifications and bills. They knew nothing about projections of sales trends, market research and careful analysis of what a family wants.

Today that's changed. If you can get a better view while steering your boat from a flying bridge; if your wife prefers stainless steel and Formica surfaces in the galley if your friends want a small boat to start in, and a selection of larger cruisers, to move up to, Chris-Craft makes them.

This company keeps plants busy in Florida, Maryland, Tennessee, California, three in Michigan and has opened a European office in Switzerland.

It makes luxury mahogany a plank of craft from 17 to 66 feet in length, a line of lapstrake sea skiffs 18 to 42 feet overall, less expensive Cavalier craft from 18 to 30 - foot sizes and Roomer steel boats that range from 31 to 56 feet.

Reports indicate that Chris - Craft boats with hulls of fiberglass and aluminum will appear for the first time in 1962.

"Is this true?" we asked Herb Pocklington, director of the Company's planning.

"We have an open mind on every material that can make a good boat," he told us. "We already use much fiberglass for super-structures and cabins."

Chris - Craft is building a large technical research center at Pompano Beach to test materials and boats. A. W. MacKercher, in charge of engineering and research, probably has more boats afloat carrying his design and construction ideas than any other man.

Under canvas at the Pompano Beach plant are the shapes of completed 55 ft. Pocklington pointed them out as the prototypes for 1962. Chris - Craft is now perfecting next year's models, and design for several seasons beyond.

Perhaps the day will even come when the boats arriving at the first spring boat show will have workmen busily screwing on touches of final trim.

Funeral for Negro Educator Set

PINE BLUFF, Ark. (AP) - Funeral services will be Friday for Dr. Floyd B. Brown, 70, a Pine Bluff Negro educator who died Monday. He established the Fargo Training School for Negro girls near Brinkley and was its president until he retired a few years ago.

Bobcats Lose To DeQueen 15 To 7

Porterfield Scores T.D. for Bobcats

By VINCE FOSTER
Hope Star Sports Editor

A 78 yard drive, a 50 yard drive, and a field goal enabled the DeQueen Leopards to hand the Hope Bobcats their second defeat of the season, as the Leopards won 15-7 on their home field.

1900 All - District FB Jimmy Goode was the big gun for the Leopards as he scored one touchdown and picked up 185 yards rushing. Goode runs hard and fast like DeQueen's fullback of 1957, Killian, who scored the winning TD for the Leopards in their 13-12 win over the Cats of that year.

Bobcat Murphy's kickoff sailed down to the DeQueen 15, where Goode picked it up and returned it to the mid-field stripe. In eight plays the Leopards moved to the Hope 13, from where Eric Presley scrambled over for the score. The PAT failed, but the Leopards had an early lead of 6-0.

After receiving a Hope punt, the Leopards again moved to mid-field, but lost the ball there as Chuck Beggs intercepted a "quickie" pass. There the Cats couldn't make the necessary yardage and again were forced to punt. Porterfield's punt rolled down to the DeQueen four, where the Leopards began another drive. This drive was quickly stopped by Charles Dudley, as he fell on a DeQueen fumble on their own 30. Misfortune struck again as the Cats fumbled on the DeQueen 22, and the Leopards marched 78 yards from there to paydirt, with Goode carrying for the final yard and the score.

With only 30 seconds left in the half, Porterfield ran the kickoff back 22 yards to the Hope 42. From there Murphy hit Porterfield on a 18 yard pass play and McDowell on an 8 yard pass to put the Cats on the DeQueen 32. But here the Bobcat line let up, and Murphy was rushed too much to pass accurately in the final plays of the half. Thus the score stood DeQueen 12, Hope 0.

Prior to the game, DeQueen Coach Jack Bell, an ex-Bobcat, commented that he would give "every hair on his head" to beat Hope. His team took him up on the offer after the game and shaved his head.

In the third quarter, the Leopards moved quickly to the Hope 11. But here the Bobcat defense toughened and would allow no gain in three plays. Then DeQueen Coach Jack Bell sent in specialist Gene Mills, who kicked a field goal which covered 31 yards in the air. This is a very unusual play for a high school team in this area.

After the kickoff, the Cats just couldn't move and had to punt. Porterfield's boot sailed down to the Leopards five yard line. From there the Leopards drove to their own 36, but they were stopped there as Chuck Beggs pounced on a Leopard fumble. Porterfield carried for 18 yards and McDowell for 12, as the Cats moved down to the six yard line. Here Porterfield twisted and fought his way over the goal line for Hope's first score of the season. Murphy's PAT was true and the score stood then and at the buzzer, DeQueen 15, Hope 7.

The Bobcats, with only two seniors on the starting line-up proved weak in the line last night. This line will have to toughen for the game against Smackover next Friday, as they will be meeting all-star Joe Black, Chuck Beggs, Dan Jones and Kendall Yocom were the standouts and Porterfield and McDowell were very impressive in the backfield on offense. Porterfield again led the Cats in yardage with 104, and he was followed by McDowell with 20, Wray with 10, Crain with 7 and Murphy with 3. Roberts and Goad won the steals for making the most tackles.

Next week the Cats play hosts to the highly ranked Smackover Buckaroos and their high and mighty fullback, "Jarring Joe" Black. This will be the Bobcats first district game and will be a very tough test.

Troops Hold

Continued From Page One

resolution in order to end Katanga's secession." Tshombe had vowed to fight "to the last bullet."

Katanga jets bombed or strafed Jadotville, Elisabethville, and Kamina.

Troops by the hundreds were thrown against the Swedes and Irish inside the former Belgian base at Kamina. Mortars and ma-

chine guns fired into the compound. Two companies of Swedish troops were flown in as reinforcements. Four plane loads of wounded were brought out.

Principal targets in the capital were O'Brien's house—he was not hurt—and the Elisabethville airport, the only point there for U.N. reinforcements to be sent in. DC4 was destroyed on the ground.

Fighting in Elisabethville was sporadic throughout the day, but there was persistent shooting. Snipers in windows and gardens fired into U.N. Githika troops. Eleven Irishmen who had been without supplies for two days surrendered at the radio station. U.N. reinforcements were sent to the station but were ambushed by Katanga police. Four Irishmen were reported killed and 15 captured in the engagement.

the Berlin and East German boundaries.

The State Department, meanwhile, heard rumors that Khrushchev was speeding up his plan for signing a separate peace treaty with the East German regime and might take the step as early as Sunday.

One of the major problems before Rusk and the foreign ministers has been what counteraction to take if the Reds undertake new moves.

Officials said that plans actually developed must be preserved in official secrecy until put into effect.

From other sources it appeared that military, political and economic steps have been worked out in considerable detail and presumably cover such actions as cracking down on East-West trade and protecting air traffic in the Berlin corridors with Western fighter planes. Two instances of Soviet buzzing of U.S. airliners on Berlin flights were reported by the State Department Thursday.

chinese guns fired into the compound. Two companies of Swedish troops were flown in as reinforcements. Four plane loads of wounded were brought out.

Principal targets in the capital were O'Brien's house—he was not hurt—and the Elisabethville airport, the only point there for U.N. reinforcements to be sent in. DC4 was destroyed on the ground.

Refresh Your Soul Every Sabbath

Worship God In His Holy Sanctuary

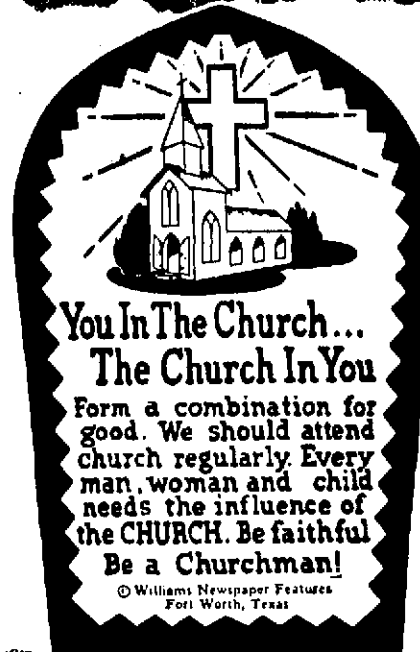

"Oh, Come Let Us Sing
Unto The Lord," For
There Is No Variableness
In God's Cause, Nor In
His Justice, Then,
Come Let Us Go To
Church

Change Works Its
Corrosion Upon Us As
We Approach Our
Rendezvous With Death
But, We Are Under
Sentence To Honor
God, To Ever
Support His Church

This is my Tithe. Let us not attempt to 'Tip' God for His benefits. Jesus said, "Bring ye all the tithes into the storehouse, and I will pour you out a blessing, that there shall not be room enough to receive it." Mal. 3:10. Jews and Christians agree that a tenth part of one's income is the accepted tithe. He said, to those who fail to give back a tenth part... "ye have robbed me in tithes and offerings."

"The Earth is the Lord's and the fullness thereof"; Psalms 24:11. May we write our tithing check freely. May we give back to the Lord a tenth of what He has so graciously and so abundantly given us. It is God's plan for financing His church. Christ approved it as the best way to carry on His work in the world. This is My Tithe.
